

Hayward® Blu™

AUTOMATIC SUCTION CLEANER

Programmed Pattern Cleaning

Features of the Hayward Blu automatic in-ground cleaner:

- Exclusive SmartDrive® – Programmed steering moves the cleaner silently in a predetermined series of turns, for more thorough cleaning
- Advanced Suction Technology – Powered by your pool's existing filtration system, saving you the expense of an energy-consuming booster pump
- Silent Operation – No pulsating hoses or noisy parts, for a peaceful pool environment
- Easy to use – Connects in less than 10 minutes to skimmer or suction port
- Comes with 32 ft. of hose
- 2-year warranty

CLEANERS

Adaptive Steering Assembly

- Guides the hose as programmed steering maneuvers the cleaner around the pool, eliminating hose tangles

Vacuum Wings

- Downdraft design captures pollen, sand, twigs, leaves, and pebbles

Advanced Pod Propulsion

- Eliminates the need for wheels and belts
- Consistent performance and long life

Intelligent cleaning every time with SmartDrive® technology.

Hayward® Blu™ is a smart choice for all types of in-ground pools. Exclusive SmartDrive technology makes Hayward Blu faster and more efficient than any random style pool cleaner. Hayward Blu moves in a predetermined series of right and left turns to systematically provide more thorough coverage of your pool's surfaces. Discriminating pool owners will value Hayward Blu's ability to clean their pool in an intelligent manner. Compared to other suction cleaners, Hayward Blu's technology also allows for silent operation. You can enjoy a pleasant and peaceful pool environment even when Hayward Blu is hard at work.

Your pool is made more enjoyable with Hayward Blu.

Hayward Blu gives you easy, trouble-free operation. You won't waste time emptying or replacing debris bags. Getting that sparkling clean pool is easy and effortless with Hayward Blu. And because it's powered by your existing filtration system, you don't have the expense of an energy-consuming booster pump. When you install your new Hayward Blu as part of the Totally Hayward® System, you get the assurance of knowing you have a complete system, designed to work together for the best automatic operation and the cleanest pool possible.

MODEL BLUCON

Blu model for concrete pools.

MODEL BLUVIN

Blu model for vinyl-liner pools.

ACCESSORIES

For pools with a dedicated suction line, Hayward recommends the Vac Lock™. It's a safety mechanism with a spring action cover, to hold the hose and close the suction opening when not in use.

The optional Leaf Canister connects in-line, trapping leaves and debris before reaching the pool's filtration system. Its see-through design lets you know when to empty it.

The optional Skimmer Vacuum Plate automatically alternates between vacuuming the pool and skimming the pool's surface with each cycle of the filtration system's time clock.
